## A MESSAGE FROM THE FOUNDER

Dear customers and friends,

When I spoke to an influx of concerned individuals during the first wave of COVID-19, I said "This will not last forever. We can only do the best we can and ride it out." The corona virus pandemic makes us realize that no matter how we plan life, we have no control over what comes our way. Now more than ever, we need to bring SAM's strengths and expertise, across all divisions, to help fight back and contribute to ending the pandemic by following protocols. Each one of us has a role to play and we can't afford to stay complacent.

Since 1998, SAM has experienced its share of similar events including the Avian Influenza, Swine Flu, and SARS back in 2002. These are hard times and together we stand apart, following protocols and advice from the experts; this shall pass and we will get close again, rejoicing in relief.

We owe a great deal of gratitude to all health care professionals for their heroic efforts and risks in helping save lives and to all business owners who have kept essential services running so that we can overcome every other obstacle of life besides COVID-19.

Our mission is to continue supplying and developing new formulas for our clients to help safeguard the health and well-being of our community and beyond.

With the opening of schools we must be at high alert and help our children not only recognise the crisis but also teach them to protect themselves from illness. It is our responsibility to guide them in preventing the spread of the disease to others, especially to those who may be most vulnerable to COVID-19.

For over 20 years, SAM has demonstrated leadership and resolve in moments of crisis and today I feel that our community will continue to work together in bringing this pandemic to a halt.

**Sam Abdall**  
Founder and President

## SAM | SINCE 1998

Providing Solutions, Building Relationships

21 YEARS OF INNOVATION AND CONTROLLED GROWTH  
ASK US HOW WE CAN HELP YOU SAVE AND GET THE JOB DONE

**SAM** has a long history of innovation and growth. Starting out in 1998 as a one-man operation serving the Automotive Industry, Sam was quick enough to acknowledge the need to expand his product offerings. In the following three years he slowly branched out to add two divisions:

*Industrial Mechanical, Electrical, Electronics Maintenance and Cleaners, Degreasers.*

This was a natural progression that allowed his existing clients: a) access to specialty products that are hard to find, b) the ability to formulate a product specific to real life needs. As a result, many products like **DANSKIN** and **TOUGH WAYNE** were named after the very same individuals that needed a customised solution.

Around 2004, **SAM** was already exploring opportunities in **Hygiene and Sanitation** cleaning and maintenance products. Since then, with customer feedback, research and development, and a controlled growth the company has become the go-to source for clients from municipalities, provincial and federal governments, institutions, as well as the commercial and industrial private sectors.

### VISION

We see Hygiene, Sanitation, and Maintenance inter-connected with safety being the common denominator. Safety in the workplace, the public, and individually.

### MISSION

Our mission is to help you find the product you desire, save you money, and build a long lasting relationship with you.

### GOALS

Our goal is to continue expanding our product line in each division and diversify with more customized products geared to help people just like you.

*At SAM we learn and understand your daily routine and problem areas you encounter. We match your needs and expectations with reliable products that have been extensively researched, tested, and currently applied in real life.*

SAM products and services will save you both time and money while ensuring you are operating at maximum efficiency with less effort, at all times. Customer support is set up to exceed your expectations and to build loyalty. **People like you are the lifeblood of our business; we appreciate you as a person and as a customer.**

# THE FORESIGHT TO ANTICIPATE

## QUAD SQUAD

Discover an arsenal of must-have **COMMERCIAL GRADE** products that will help you follow strict protocols during the **COVID-19** pandemic and do your part in containing or slowing down its spread.

### **FIGHT BACK RTU**

Registered Disinfectant & Cleaner Sanitizer R.T.U

Ready to use spray disinfectant. A quaternary ammonium based product for the use in hospitals, nursing homes, schools, as well as industrial and institutional food establishments, kennels, veterinarian and animal hospitals.

FIGHT BACK RTU is formulated to disinfect hard non-porous surfaces such as floors, walls, metal surfaces, stainless steel surfaces, porcelain, glazed ceramic tile, plastic surfaces, bathrooms, shower stalls, bathtubs, and cabinets. Also acts as an effective odour control for garbage storage areas, restrooms, and other areas prone to odours caused by bacteria.

### **SPRAY DISINFECTANT**

Registered Surface Disinfectant (Dry Aerosol Spray)

Phenolic disinfectant deodorant that destroys odor-causing bacteria on environmental surfaces.

Effectively kills Human Immunodeficiency Virus Type 1 (HIV-1; a retrovirus that causes AIDS [Acquired Immune Deficiency Syndrome]), Staph, Pseudomonas, Tuberculosis, Fungus, and many other virus strains (Influenza A2 Virus and Herpes Simplex type 1 and 2).

Eliminates odors in the air leaving a clean sanitary fragrance.

### **PROTECT PLUS**

Lotion Based Hand Sanitizer

Commercial Grade Lotion Based Hand Sanitizer formulated for the use in hospitals, daycare centers, and schools. Ideal to kill bacteria, moisturize and protect hands from viruses.

### **SCRUB UP**

Lotion Based Hand Sanitizer

Innovative, commercial grade, hygiene solution with antiseptic formula. Kills bacteria, protects hands from viruses. Ideal and recommended for healthcare personnel. Dries fast and requires no water. Contains moisturizer.
